

# Research Participants Invited!

- ✓ Are you a **healthy speaker**?
- ✓ Do you speak and understand English?
- ✓ Are you between the ages of 18-90 years?

If so, you might qualify to participate in a research study.

The goals of the study are to understand how speakers control their voice and to develop therapy that improves vocal control.

Participants will complete hearing tests, cognitive tests, and voice recordings while they perform different speaking tasks.

Participation is limited to two sessions lasting no longer than 2 hours each. Parking and compensation will be provided.
