

Midge Kovacs Annual Awareness Award Recipients

Since 1999, the National Spasmodic Dysphonia Association, now Dysphonia International, has presented the Midge Kovacs Awareness Award in order to recognize the outstanding efforts of one of its support groups for their work the previous year to honor the pioneering advocacy work of the late Midge Kovacs. Midge was a founding Board member of the NSDA. She started an SD Support Group in New York in 1987 and published a newsletter entitled *Our Voice* for patients and doctors in order to raise awareness about spasmodic dysphonia. In a note to the NSDA community in 2000, Midge encouraged all of whom are struggling with spasmodic dysphonia to think beyond their own individual voice problems.
